The volunteer(s) will also help our Export consultant in their daily work: this include: organizing training for local businesses (which includes: maintaining a attendance list, preparing drinks and snacks for attendance, maintaining a training room clean and tidy), promoting local goods and companies on the international market, creating a newsletter and a database with local exporting companies, also managing website and social media accounts. The volunteer(s) will be a part of lesson which we may prepare for schools.

The volunteer will have Polish lessons during the projects.
